

# Glades Fall Bean Deal Thrives In Favorable Set Up

Prices Are High, Volume Up, And Shortages Haven't Started

The Glades bean deal was thriving this week in a combination of favorable circumstances which is as rare as it is elusive.

Prices were unusually high, the volume was up and the usual plagues such as rail car and labor shortages had not yet intruded the produce scene.

Several trends indicate that this bonanza may be short lived. Prices are expected to retail promptly due to increased volume from this section and the volume of the full-dilling is expected to be lost.

H. L. Spear, assistant county agent, stated that the volume of beans may prove disappointing since the cold weather a week ago has caused some of the beans to be lost. The cold and some younger beans to turn white. These effects may result in lowering the volume, he said.

This week the prices ranged: Valentines, \$2.38 to \$2.50, Florida, \$1.75 to \$2.00, Florida, \$2.10 to \$2.30, Florida, \$2.75 to \$3.25, and Connecticut, \$3.25 to \$3.50. The average quality has been good and about 25 cars have been shipped from the lake region a day, according to a produce official.

Rabin and Pioneer Growers Corp. started picking the beans and they will be given full credit. Mrs. E. D. Humphries is the chief chairman.

Sons started running early produce including escarole, chery and romaine last week and the beans are now being sold at \$1.25 a bushel.

Escarole has been selling for \$3.30, chery, \$2.50, and romaine, \$3.00 a crate. The firm finished shipping full sweet corn two weeks ago.

Graber and Sons reported that the radish volume was running a little lighter than usual this week due to cold weather. A week ago. Approximately four or five cars have been sent to the firm a day, and the price range during the season to date has been between \$1.25 and \$1.75 a basket.

## GLADES FLOWER JUDGING SCHOOL IN PROGRESS

A three day Flower and Ornamental Judging school is now in session at the Canal Point recreational center. Classes under the direction of Mrs. Paul H. Ochs, Miami Beach, assisted by Mrs. Tal. made the school Miami Beach yesterday and will meet today and tomorrow.

In attendance are members of the Pahokee, South and Belle Glades Garden Clubs. Local women who are participating in the school sessions include Mrs. Ivan Van Horn, Mrs. Luther Jones, Mrs. C. C. Livingston, Mrs. R. V. Crech, Sr., Mrs. A. F. Hogan, Mrs. Irving Zump, Mrs. Harry Peters, Mrs. Harold Ridel, Mrs. R. E. Howard, Mrs. Francis Harris, Mrs. E. McCabe, Mrs. Herbert Beck, Mrs. Lennie Warren, Mrs. Walter Hahnbach, Mrs. E. H. Hooker, Mrs. M. M. Sabiston, Mrs. George Farnah, Mrs. Ralph Kirk, Mrs. P. E. Hollingsworth, Mrs. George Towler, Mrs. Barbara Barnes, Mrs. and Mrs. John McKenzie.

Ochs' skill and ability with flowers, floral arrangements and their uses are widely known throughout the states. In addition to her floriculture knowledge she has attained fame both as an interior decorator and pot plant grower.

Mrs. Ochs is a specialist in horticulture in relation to northern and southern climates.

The women attending these sessions are certain to profit from the skill and knowledge both Mrs. Ochs and Mrs. Coffey have acquired and impart to their students.

WANN TO BROADCAST ORANGE BLOSSOM CLASSIC Station WWSN will broadcast the Orange Blossom classic between 10 and 11 p.m. A and M College and North Carolina College at 3 p.m. Sunday.

# Okeelanta Expects Largest Volume Output This Year

Mill Modernized and Equipment Installed During Idle Season

The Okeelanta Sugar Refinery, taken over last year by the Columbia Bank for Cooperatives, started what is probably the busiest grinding schedule in the history of the plant Nov. 17, according to John M. McKenney, resident manager.

For the first time in its operations the plant showed a profit last year.

During the grinding season, which continues for ninety days into January, the mill will produce 100,000 tons of sugar and tons of sugar from approximately 3,000 acres of cane.

## SLAUGHTER CANNING PLANT PREPARES FOR OPENING

The machinery of Sloat's Foods, Inc., canning plant, is being reworked in preparation for season operations, a spokesman said this week.

The tentative date for operations to start has been set for December 15 although this depends on whether the price of beans falls, the official said.

## LOCAL PATRONS FLOCK TO MRS. SCULLEN'S AUTOGRAPH PARTY TUES.

Local book lovers crowded into Walker Office Supply store for Mrs. Nell Scullen's autograph party Tuesday. In response to the demand, she will hold another autograph session at the Walker Office Supply store on Wednesday.

Attracted by a book of local "Com." the work of a local author and her reports, many deserted their jobs for a short time to talk to the local author and get her autograph.

Many purchased the new book of local authors' publications, date for Christmas gifts to be sent to California, New York, Texas and one as far as Lima, Peru. According to reports, they plan to say "Merry Christmas" with the story of the Glades.

## News of Glades Boys And Girls In The Service

Large as six feet in diameter for the airfield site. The county recently received the Northern Florida High School and was employed by Mr. J. H. Chambliss before enlisting in the U. S. Navy October 31, 1950. He received his basic training at the U. S. Naval Training Center, Great Lakes, Illinois and was stationed at Port Huemue, California before shipping out. Enroute to the Philippines the unit stopped at Guam and Manila.

## PARKE GIVES HOSPITAL REPORT AT LIONS MEET

Donald Parke, superintendent of the Belle Glade Memorial Hospital presented the annual hospital report at the Lions Club meeting Wednesday noon in the Legi on Hall.

Pointing out the apparent increase of confidence in and use of hospital facilities, Parke stated from the report that during the year there was a ten per cent increase in patient days, but this was due to the fact that there is still a wide margin for greater utilization of hospital facilities.

Listing statistics, Parke said that 57 deaths had occurred, 13 after 48 hours, and that there had been no maternal deaths during the year.

"Financially we have made progress," Parke said. The hospital earned 124.1 per cent of estimated revenue and disbursements were 53.8 per cent of the budget estimate. He said that 14,457.47 cents had been written off and that \$8,611.24 had been spent for additional and replacement equipment.

## FAMILY GATHERINGS HERE THANKSGIVING THEME

Thanksgiving, always a day of family gatherings from coast to coast and north to south, found members of local families gathered around the festive feast at the home of Mrs. J. W. Hill, 205 S. W. 1st St., on Thanksgiving day.

Places for twenty were laid at the home. Dr. and Mrs. Clarence W. Kidder whose guest list included their son, John, Howard Hill, W. P. Hill, Eva Mae Taylor of Pompano, Mr. and Mrs. Ralph W. Kidder and daughter, Mary Elmore and daughter, Mrs. M. F. Taylor and children, Robert and Louise, Miss Elsie Whitehead of Florida Southern college, Mr. and Mrs. Clarence Springer, Mrs. Dora Timmons and daughter, Barbara Wadsworth, Mr. and Mrs. George Wadsworth and children, Douglas and Deborah.

Mr. and Mrs. Donald Kirkman and daughter, Donna Jean played host to Mr. and Mrs. Frank Kirkman and son, Wilbur, Mr. and Mrs. W. K. Whitlock and children, Brookline, Edna and Freddy, Mrs. J. Kirkman and Arlene, and Archie Kirkman.

The VanLandingham families also came to South Bay where they partook of turkey with Mr. and Mrs. Mead Willis and family, Johnny, Barbara, Jean and Joan. Guest of the Willis included Mr. and Mrs. Bill Willis and daughter, Pam at Miami, Mr. and Mrs. H. C. Jones and daughter, Alice and Sandra of Princeton, Mr. and Mrs. Frank Willis and children, Kenny, Dick and Doris, Mr. and Mrs. E. M. VanLandingham and children, Billy and Sue VanLandingham, Mrs. and Mrs. H. C. VanLandingham and children, Carol, Sammy and Richard and Mr. and Mrs. H. C. Willis.

Dr. and Mrs. Ralph L. Pipes and sons, Larry and Charles, as guests for the day Mrs. Pipes' parents, Mr. and Mrs. Ray Bakema of West Palm Beach and Mr. and Mrs. Ray van Stenburgh, of Harrisburg.

At a noon time dinner Mr. and Mrs. Charles Fontaine entertained Mr. and Mrs. R. Y. Creech, Mr. and Mrs. Eugene Fontaine. An evening dinner was served at the home of Mrs. L. T. Creech and her daughter, Miss Lee Creech. Their guests included Mr. and Mrs. R. Y. Creech, Sr., Mrs. G. E. Durham and children, Mrs. L. W. Lane, Jr., of Jacksonville, Mrs. Durham and Mrs. Roon are daughters of Mrs. L. T. Creech.

Observing the day in a style somewhat similar to that of the early Pilgrim fathers, Mrs. F. O. Holston and children Don, Joe and Beth took to the woods. Accompanied by Mr. and Mrs. C. A. Canipe and children Judy, Ray and Wayne, Judge and Mrs. E. L. Donnell, parents of Mrs. Holston and Mrs. Canipe and their brother, Bill Donnell, who has just returned from Burma, where he was attached to the consulate service of the State Department, they enjoyed a picnic dinner in the St. Lucie Canal region.

The Schoenfeld families were gathered together at the home of Mr. and Mrs. F. C. Schoenfeld, who with their sons, Charles and Billy entertained Mr. and Mrs. Henry Schoenfeld, Mr. and Mrs. John Schoenfeld and children, Carolyn and Bobby and Mrs. J. B. Bayless of Harrisburg, Pa. Mrs. Bayless is a sister of the Schoenfeld brothers and a daughter of Mr. and Mrs. Henry Schoenfeld.

Mrs. and Mrs. J. H. Chambliss were hosts to Mr. and Mrs. D. O. McClure and children, Alvin, Ann and Gene, Miss Eva Sue Taylor of Pompano, the Rev. James H. Skelton of Anderson, S. C. Also present were Patry

Chambliss home for the day from Stetson and Janet, James and John Chambliss, Mr. and Mrs. A. H. Zumpf and daughter, Susan had as their guests Mr. and Mrs. Irving Zumpf, Mr. and Mrs. Harold Zumpf and children, Michael and John Zumpf, Mr. and Mrs. Paul Zumpf and Mr. Rudolph Hilsh of Hamburg, North Dakota.

As Billy and Lee Burke played in the Baby Gutter football game at Gainesville on Thanksgiving day, Mr. and Mrs. P. L. Burke and family awaited their arrival home and had their celebration dinner Friday night.

Present were Mrs. B. C. Moore, Mr. and Mrs. H. E. Priest and daughters, Terry and Ann, Mr. and Mrs. Willard Schell and children, Pat, Tommy and Kathy, Jean, Billy and Lee Burke, and Charles Yukus, a student and football player at the University whose home is in Illinois.

## UNFRIENDLY TRIBUNE

Continued from Page 1

graded by a government expert, stored in a government designed container and accepted by the government under the contract.

Some \$300,000 in cash has been spent, and most of the local labor, machinery, equipment and supplies, with a weekly payroll running approximately \$5,000.

Harvesters of the same design and make as those used by Newport are cutting and binding the stubble, a decorative similar to that at Newport is recovering the fiber in the stubble and efficiency to the harvesting, a ribboner, designed by Dr. and Mrs. Whitmore of the USDA out at the Everglades Experiment Station, has been made mobile and two are being used day and night, with one almost completed at Pappy Lane's shop.

These machines can be made more efficient, and improvements are constantly being made. Those using the machines believe that ultimately more efficiency in operation will make the production of fiber more attractive in the Glades region and improvement is a part of every day's operation.

Both a native and an abusive story, any newspaper with the interests of the community as a controlling idea would have found praise for the boys at the Station for their work on machinery, as well as for their five or six in number, who are constantly devoting all their time to phases of improvement of most of the fertilizer, pest and disease control.

Some measure of encouragement could be given capital that is permitting these improvements in harvesting machinery and raking capital on a new investment that will mean so much to the Glades.

With a billion pound market—that's what we import annually—support from the USDA, request from the Municipal Board in the war effort, American Capital—there's not a dime of government money in the project, except seed sold on credit—holding its judgment, what gives with an autocratic newspaper printing "city slicker" reporter's clouded vision of a strange operation?

Along with "freedom of the press" goes continually the "freedom of the press"; some of us believe honest reporting, due credit and wholehearted support of progressive pioneering is an obligation.

## COMMISSION SETS

Continued from Page 2

ment better than anyone in the Glades, and the group of laborers which hang around the liquor stores are of no use to us." Emphasizing that the laborers who looked all night didn't produce a days work and were more apt to have accidents on the job, Mrs. Timmons advocated the resolution.

Rev. W. E. Griffin, pastor of the Baptist Church, stated that the issue was a question of "dollars and cents or human souls." Shifting from the direct issue he stated that those who sell liquor are to be condemned more than the drunkard. The argument around a cross the floor argument between Alper and himself, Rev. Griffin supported his stand by reading a selection from the Bible and concluded his talk with prayer.

Rev. E. L. Holladay, pastor of the Methodist Church, stated that he was in favor of the action and that the interest of the community was indicated that it was time to act.

Rev. R. Ford, pastor of the Everglades Presbyterian Church, terminated much of the discussion by saying, "I believe we have escaped the point at hand. This is a matter of discrimination, morals not withstanding."

Reading from a prepared paper, Mrs. R. V. Allison, member of the Interdenominational Council, connected the laws of nature and metaphysics with the issue and stated that "the preservation of our liberty is involved."

We don't expect this solution to be a hundred per cent cure but that doesn't mean that it isn't worth a try."

Following the lengthy discussion, Commissioner W. F. Crier moved that the commission accept the resolution and instruct the attorney to draw a new ordinance setting hours on the closing of liquor stores. He asked that the Mayor appoint a committee to work with him on the ordinance. The motion was passed unanimously.

William Thibodeau requested that the commission meeting might be changed so that those who attend Wednesday night prayer meeting would have the opportunity of sitting in on commission meetings. Through a motion the meeting might be changed to the second and fourth Thursday nights effective on the second Thursday in December.

On the recommendation of City Inspector N. B. Willis and the State Hotel Commission, a motion was made to change the sections of buildings in Alamos, Inc. rental property in colored town were lifted.

## MRS. ROSADA CRATON DIES HERE SATURDAY

Mrs. Rosada Craton, 64, a ten year resident of Canal Point, died at the home of her daughter, Mrs. W. F. Frolick in Chosen last Saturday morning.

Funeral services were held at the Berry Funeral Home chapel, Falmouth, at 3 p. m. Sunday and Rev. Robinson, pastor of the Chosen Baptist Church, officiated at the graveside service at Port Mayaca.

Other survivors include husband, Albert; sons, Emmett, Salerno, L. W. Canal Point, Salerno, Betty Joe, Canal Point, Jessie, Lucille and Charlot, Salerno; brothers, Edgar, Martin, Frostproof, Clarence, Charlie, Dunbar, and two grandchildren.

## BIRTHS

Dr. and Mrs. David Stoddard announce the birth of a son, David Howell, weighing three pounds, 12 ounces November 18 in Bradenton.

## LEGAL NOTICES

Mrs. Hubert Swain won the prize for pinning the hat on the donkey, Miss Gladys Crosby was awarded the prize in the memory contest. Each one presented the bride with a favorite recipe.

Mrs. Woodham is leaving Friday to join her husband J. H. Woodham at Hunter Field, Savannah, Ga.

Cup cakes, coffee and mints were served to Mrs. Editha Coleman, Ruth Coleman, Mrs. Verda Mathewson, Mrs. Geo. R. O'Bar, Mrs. Lester R. Rudy, Mrs. Alfred Vadaz, Miss Florence Beebe, Miss Gloria Crobb, Mrs. Sidney Broughton, Mrs. R. G. Fisher, Mrs. O. M. McAllister, Mrs. Cora Marlowe, Miss Marjorie Touchstone, Miss Odell Henderson, Miss Dorothy Yarborough, Mrs. Curtis Miners, Mrs. E. E. Hardy, Mrs. L. O. Ratley, Mrs. O'Neal Walker, Mrs. Herbert Priest, Mrs. Bill Blackwell, Mrs. Floyd Wilder, Mrs. Earl Edens, Mrs. Hubert Swain, Mrs. Margene Price, Miss Shirley Campbell, Mrs. Clayton Waters, Mrs. G. J. Barstow, Mrs. Melvin Herring, Mrs. F. B. Willie, Mrs. J. C. Sumlin, Mrs. Linton Miller, Miss Martha Joan Ratley, Mrs. L. O. Arnold.

**NEGRO NEWS**

**Masons Lay Corner Stone** of Triumph Church

On Sunday, November 11th the Belle Glade was graced with the presence of Most Worshipful M. A. A. Miller, Deputy G. M. Evans, Orlando, Fla. and many other high ranking Masons of the Prince Hall Jurisdiction A. F. and A. M. of Fla. The occasion was the laying of the corner stone of the Triumph Church, Elder C. H. Holt, Shepherd. The illustrious Z. Morgan, 33rd Degree W. M. of Okeechobee Lodge and Okeechobee Lodge No. 54 were present. A very colorful parade starting at the Palm Brewery Lodge proceeded East, to 5th Street,

then north to Avenue A and across to 5th Street to Avenue C and 8th Street where the church was located. The Order of Eastern Star led the parade and the Craft followed. Beautiful and appropriate music was furnished by Everglades Vocational High School's Band, Mrs. M. Hamilton, Director.

As usual on such occasions the church was too small to accommodate the enthusiastic crowd. A short program was rendered at the church by the Order of Eastern Star and Okeechobee Lodge No. 54 of Belle Glade. Music was furnished by the choir of the church. Response to the welcome address was given by the R. G. A. M. Mrs. Miller. The very timely sermon was delivered by Rev. Nobles of Daytona Beach, Fla.

At the close of the ceremony pictures were made by the local photographer.

**Everglades Vocational High**

Friday, November 16, was Homecoming Day at E.V.H., the highlight of which was the colorful football parade which was a success in the project, but had to be cancelled in Belle Glade because of inclement weather.

Entering floats were the Primary and Intermediate Departments of the church, the school grades, New Homemakers of New Farmers of America, the Veterans, East Lake and Lake Shore Elementary Schools, the pep squad, the Mothers' Club, and the beautiful decorated floats of the band members.

In spite of rainy weather Friday night, the "Bobcats" were victorious in the end, defeating the Pompano "Tigers" 13-0. Touchdowns were made by Gus Peavy and Eric Dennison.

"Miss E.V.H." was crowned during the half. She and her attendants looked very charming indeed. The queen, Helen Foster, carried a bouquet of yellow pom-poms, with a matching corsage. Her attendants, Alybertha Rhodes and Earlene King, also wore corsages of yellow pom-poms.

The music committee of E.V.H. and the band parents of the school, the Homecoming Building Monday evening. A club was organized, known as the Homecoming Parents Club.

The following officers were elected: Mrs. Blanche Gooper, president; Mrs. Tommie Vereen, vice-president; Mrs. Willie M. White, secretary; Mrs. Fannie Harrell, treasurer. They have formulated plans to uniform the band. The group is a very interested one, and everyone is willing to help make the present drive a success. There are approximately thirty-five members of the organization. Meetings are held on Tuesday of each week. The music committee and parents are asking the support of every

interested citizen. Persons are asked to make contributions by contacting a member of the committee or organization, or mail a personal check to Everglades Vocational High School.

Students of E.V.H. returned to school this week, having celebrated and enjoyed another Thanksgiving Day. Every year pupils in each grade, both elementary and high school, contribute canned goods and other commodities toward Thanksgiving baskets for needy families.

This year several baskets were given to such families that they, too, might enjoy and spend a pleasant holiday as well as other fortunate persons do. We wish to thank all contributors for making an effort to make others happy.

The Band Parents Club had a turkey raffle last Wednesday evening, ever of Thanksgiving. Members and other persons of the community were entertained with music by several band members of the school band, while tickets were being sold. The raffle was a huge success. Proceeds will help toward purchasing uniforms for band members.

We wish to make known that it was Mrs. Fannie Potter's idea to have this turkey raffle, and the other members are to be commended for cooperating and helping to make it a very successful one. Mrs. Louise Lewis held the lucky ticket, thereby being winner of the turkey.

The Seventh Grade J.B. class presented a very interesting chapel program Monday, the theme of which was loyalty to one's self and to one's country. Several readings and musical selections were given by various class members. The officers and members of the class were introduced to the student body.

### NEW RULING WILL NOT WIPE OUT ALLIGATORS

Alligators, one of Florida's prime tourist attractions, will not be wiped out by the October 29 ruling of the Game and Fresh Water Fish Commission declaring a restricted open season on specimens over eight feet in length. O. Earle Fry, assistant director, stated today.

Fry stated that many sportsmen and newspaper writers have protested the ruling, but said that such protests evidently stemmed from a lack of knowledge about the new state-wide regulations and the characteristics of alligators, themselves.

To clarify the regulations, Fry brought out the following points:

1. All alligators are protected at all times except during the open season from October 1 to February 1. Only alligators over eight feet in length may be taken during the open season. Alligators under eight feet in length are protected at all times.
2. All alligators of all sizes remain completely protected at all times in the Everglades region lying south of State Highway No. 80 and west of State Highway No. 7.
3. Hunters must obtain special permits from the Game Commission to hunt alligators, even during the specified open season. No alligators may be legally taken at any time without such a permit.
4. It will be illegal to possess, sell, buy or transport any alligator, crocodile or similar animal, or its hide, except during the open season.

It will be illegal to molest, possess, sell, buy or transport any alligator, crocodile or similar animal, or its hide, except during the open season.

The Commission is fully aware of the value of the alligator to Florida. Fry said, "and the alligator involved were taken into consideration before the new regulation was adopted."

Fry said that evidence brought out by experts during the meeting indicated that large alligators are principally males, are not good breeders, and may actually reduce the alligator population due to their tendency to be cannibalistic and otherwise disturb the smaller breeding alligators. Alligators are inclined to become bold and aggressive, especially as they increase in size, when under such conditions, particularly close to cities and farms, alligators may become a nuisance.

ter holes during the dry season. The authorities fully realized the benefits resulting from the alligator's habit of creating large water holes to live in, and the fact that these water holes are often the only source of water for the alligators and the mammals during drought periods.

### FARMERS CAN HELP TO MAKE COUNTRY STRONG

It is the duty of every American to help make the nation strong. Long these troubled times when the hand offered in friendship to all countries also must be strong for freedom and its democratic ideals if necessary.

America is hoping and praying for peace in the world, but she also realizes that she must be strong if peace is to prevail, that she must be strong to defend herself if conflict should develop. To be strong, America must have the support and loyalty of all Americans.

Information, according to the authority received here from Merrill C. Lofton, regional director of the U. S. Department of Commerce in Atlanta.

Meeting with his newspaper industry advisory committee in Washington, NFA officials said some way must be found to help these papers, and the recommendation was made that a common pool made available by publishers for distress cases be used for that purpose.

Newspaper publishers in the Southeast and other sections have been cautioned that newspaper supply will continue to be scarce in 1952, despite increases in production and an outlook for continued rises. Production of newspaper in North America in 1951 was placed at 6.6 million tons compared with approximately 6.2 million in 1950.

From 1948 to 1951 and will be the last "special" dividend, as dividends will be regular and paid annually from now on.

Q. Under National Service Life Insurance, what is the difference between an "expired" policy and a "lapsed" policy?

A. An "expired" policy is one on which the premium payments have not been paid on time.

Job of paying Prisoners-of-War claims nearly complete—With 108,188 checks totaling \$49,883,210.91 already mailed out. War Claims Commission attempting to contact some 28,000 families who have not filed claims.

Claims being processed at rate of more than 2000 weekly, with 117,000 series presently being okayed for payment.

other county, 333 children and adults were tested. Of that number, 127 revealed the presence of hookworm, 124 of these children.

Anemia findings have not yet been completed for the latter two counties, but early tabulations of results indicate that a significant percentage of anemia would be found in these hookworm cases.

Dr. Smith stated that there is "nothing compulsory" about the examinations or subsequent treatment when hookworm is found. Children are given the tests only when their parents request it. Dr. Smith emphasized. Results are confidential. County health officers inform parents of the results and advise treatment, either by private physician or county health department clinics.

in full operation since last summer. A quarter-mile police-courtesy motorcade took the visiting members from their convention hotel in Orlando to the building six miles away. The Orange County Farm Bureau acted as hosts during the open-house.

The members applauded their national president Allan Kline, who flew down from Chicago to address them. He warned them about the socialist trend in Washington and urged a continued fight against it by the Farm Bureau both on the national, state and county levels.

Paul Thornhill, of Dundee, was officially presented the

1951 Farm Bureau Winn & Lovett \$1,000 college scholarship. He is enrolled at the University of Florida in Gainesville.

Representatives of Florida's four agricultural youth groups, boys and girls 4-H Clubs; Future Farmers and Future Homemakers, were among the principal speakers.

For his own good and the nation, he can avoid all waste. No matter when it occurs, waste reduces the farmer's income, but in times of depression it also weakens his country. The patriotic farmer will make every effort to reduce waste—waste of land, crops, equipment, materials, and other things.

**John T. Carlton Appointed Sen. Smathers' Assistant**  
Senator George A. Smathers announced recently the appointment as his Executive Assistant of John T. (Jake) Carlton, 42, long time southern newspaper man and Washington news correspondent.

The Senator announced the appointment at a breakfast Saturday morning at Miami where some one hundred fifty members of his successful 1950 campaign organization gathered for an anniversary rally.

For the past five years Mr. Carlton has been Washington correspondent for the Miami Daily News. He is one of the five newsmen, representing newspapers and news services from all over the world, comprising the Standing Committee of Correspondents which supervises operation of the Congressional Press Galleries and press arrangements for national events such as National Conventions and Presidential Inaugurations.

Mr. Carlton came to Washington in 1946 after 4 years overseas service during World War II in Alaska, Hawaii, and Okinawa. He was a member of the staff of the late Lt. General Simon Bolivar Buckner, who was killed in Okinawa. Mr. Carlton, still a Colonel in the active army reserves, is a war hero of the Legion of Merit for his work in Alaska during 1942-44.

Although a native Georgian, Colonel Carlton has many family connections in Florida and is widely known in the state through his newspaper and numerous visits in the state. He has worked closely with members of the Florida Congressional delegation and Florida citizens visiting in the Capital.

### VETERANS INFORMATION AND SERVICE

By Melvin T. Dixon  
State Service Officer  
How many of you know where and how "Yankee Doodle" originated? Well, early in the French and Indian War when British regulars at Rensselaer, New York, needed reinforcements, colonials dropped their hoes and carpenter tools, to join the fight in civies. Upon seeing the motly band—the British burst out laughing. A Tory surgeon paraphrased the jostling Dutch song: "Yankee die doode don, dider duder lawnter..." into English. But when they joined the battle, it was the ill-fated colonials who showed the British how to beat Indian tactics. The Red coats had to concede them the victory. As the men without uniforms marched home, their triumphant song was "Yankee Doodle Came to Town"—and leading the patriots was young Captain Finch, eldest son of the colonial governor—the first "Yankee Doodle".

The Veterans Administration plans to pay another National Service Life Insurance dividend next year. About 1/2 of the 1951 "special" dividend has been paid. This year's "special" dividend covers the period

**How to make old roads seem NEW**  
Pick a road that you know by heart. Not too good a road. One that has some bumps—some unbanked turns—a tough hill or two.

Then get in touch with us, and let us put you behind the wheel of a Buick, with Dynaflow Drive.\*

Now you're all set for a new experience. You'll find out this:

Those bumps seem to lose their hobbles. You just take them with a smooth and level stride.

Those unbanked turns don't seem so sharp, and those hills seem almost to flatten out.

How come? Well, a lot of things are different when you travel in a Buick.

Dr. Smith is director of the state health agency's Division of Nutrition and Diabetes Control. The division is currently conducting the hookworm survey in Florida counties to determine the effect hookworm has on nutrition and anemia.

The survey team has been at work in five counties so far, and the service is available to other counties when requested, says Dr. Smith.

For families where hookworm infection is found, the local health department sanitarian will visit the home and suggest means for eliminating the source of infection, Dr. Smith added.

In one county of 214 children tested, the first three school grades, 144 had hookworm and 13 showed evidence of anemia. Significant fact was that none of the hookworm-free children showed anemia, Dr. Smith continued.

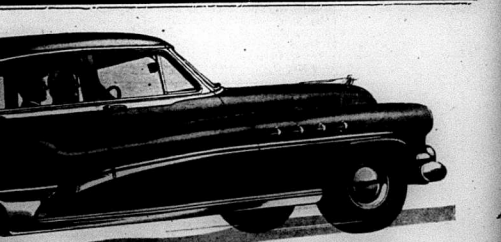

In another county it was noted that of 500 tests made, 219 showed hookworm. Of this number, hookworm victims, 83 were anemic. In a third county, of 1,324 children tested, 445 showed evidence of hookworm.

In a community in still another

**How to make old roads seem NEW**

You're riding on big, soft coil springs that let every wheel dance beneath you, without passing on the jolts to you in the car.

You're driving a car that's plenty inches broader than it is high—a sure-footed road-hugger if there ever was one.

And you're riding behind a Fireball Engine—Buick's time-tested version of a high-compression valve-in-head—an engine that packs more power than most people ever need to use.

With this power—and Dynaflow Drive—you don't have to "push" a hill at the bottom to soar serenely over the top. You just feed the power as you need it—climb with a

sure, steady swoop without buck or bobble all the way up.

There's a lot more that we could tell you about a Buick. But such things as room, and comfort, the confident way it steers, and the way it shortens the miles are things you can best discover from personal experience.

So why not follow the routine already suggested? You supply the road—we'll supply the car—and let it speak for itself.

With this power—and Dynaflow Drive—you don't have to "push" a hill at the bottom to soar serenely over the top. You just feed the power as you need it—climb with a

## Too Late To Classify

Russell Key

With Fuller Warren's lease to a mansion in Tallahassee running out in about a year from now, it appears that a lot of prospective tenants are preparing to stampede the landlord for a chance to take over the day that Fuller moves out.

The way things have started out it appears that between now and next May, the landlord will get an ear full and no foolin'.

Dan McCarthy of Ft. Pierce, who had hoped to get the lease three years ago, has been making a fuss over the owner of the property and whispering in his ear at every opportunity. Dan's friends, and he has a lot of 'em, have been putting in a good word for him, too.

Up in Tallahassee, former Justice of the Supreme Court, Alto Adams has had his eagle eye on the property for some time. Considering the fact that Fuller is giving up the place, and Adams is right on the ground—he has decided to get

with the landlord and see if he can't persuade him to make a deal for the next four years. Millard Caldwell, who spent a few years there while back, has been telling Alto what a comfortable place it is so he is mighty anxious to move in.

While he was serving in the regular army, Bradshaw of Sanford used to walk by the place frequently and it seems that he has also taken a real fancy to it. He is sure that he can convince the landlord that he would make an excellent tenant and is promising to clean the place up and keep it nice and tidy if given the opportunity. He claims there are a lot of skeletons in the closet that ought to be gotten rid of and he is just itching to do a first-class job of housecleaning.

Bill Hendrix of Tallahassee, head of the Ku Klux, has been over ever since the present occupant called him and his followers a bunch of "jerks." Bill would like nothing better than to move in himself and burn a nice big cross on the front lawn. He admits, however, that he is on very good terms with the landlord and doubts if he would be given much consideration.

Down Kissimmee way a chap named Dale E. Spencer thinks it would be nice living in Tallahassee and announced not long ago that he would be in there pitching in an effort to take over the lease. He says he would make a lot of changes but all of them would be for the better and of genuine benefit to the landlord.

A Tampa named Bruce Stevens has also started ringing the owner's doorbell and is telling what an excellent tenant he would make.

At St. Petersburg, friends of Henry S. Baynard have been trying to get him to make an appeal for the place. They think Henry would prove a most desirable tenant and advised him that if he didn't have the rent money they would scout around and help him dig it up. They figure they would have a lot of fun and throw some swell parties there if Hank Baynard was in possession of the key. But Baynard knows his way around, and after giving the proposition a lot of careful consideration he finally decided that life in St. Petersburg would be a lot less pleasant than in Tallahassee, so he says he is going to pass up the idea.

When the matter of the lease was up for consideration three years ago, the boys interested in it at that time sure did entertain the landlord in bang up style. No one actually knew how much was spent on entertainment but it ran into hundreds of thousands of dollars.

While the boys may have to keep track of their expenditures a little closer this time and some of them may find their style cramped a bit, there are always ways and means and you can

rest assured that the landlord will be well taken care of and entertained royally.

Of course after one of them wins out and the new lease is signed, sealed and delivered no body pays much attention to the landlord for the next few years, but from all indications he is in for a high old time from now until election rolls around.

If you haven't gotten a ring-side seat yet better be getting one for this promotion. It's a knock-down, drag-out melee if there ever was one. Bralley doesn't have already come in swinging and when you get 'em all in the ring sluggin' and slappin' you can look for some bloody noses and some gorgeous black eyes.

## CEILINGS ON USED CARS TO GO INTO EFFECT

Dollar-a-second cars selling prices on used-cars will go into effect December 20, according to John E. Noel, acting district director for the South Florida district office of Price Stabilization in Miami.

The new ceilings are spelled out in Ceiling Price Regulation 94 which applies to all used cars sold by individuals from December 20 to January 1, 1952. After that all used cars offered for sale will be controlled by the ceiling price, including any extra, special or optional equipment, as well as the dealers' new owners are now making plans for additions and expansion to the present facilities in order to more ably serve the Florida farmers, but plant operation will not be interrupted.

Ceiling prices listed in the regulation are for the models from 1940 through 1951. Models made before 1940 models will take the ceiling price for the earliest make model listed in the regulation. In the case of a model after 1951, when sold as a used car, the ceiling price will be the ceiling delivered price of the car when new for sale by dealer. If sold, including the price of any item or extra, special or optional equipment that is on the car, an allowance for a used car, traded in on a new or used car may exceed the ceiling price listed in the regulation.

The Office of Price Stabilization said the ceiling prices applied to all cars in regular use will apply until January 1, 1952, and will be automatically lowered by 2 percent on that date and at the beginning of each subsequent quarter.

The new regulation specifically forbids dealers from requiring purchasers to make payment over a period of time—no down payment and no trade-in—any particular lending agency—to buy extra or optional equipment, accessories, parts or services or any other commodity to obtain delivery of a used car—

to trade in a used car—to accept less than a reasonable cash offer for a trade-in, or the use of a rental or leasing contract with an option to buy, if the selling price plus rental charges exceeds the stated ceiling price.

Detailed information about the regulation may be obtained by writing to the district office of Price Stabilization, Roper Bldg., Miami 32, Fla.

## Blake Dunson Takes Over Stuckey Fertilizer

Mr. Blake L. Dunson has announced that he and his associates have recently acquired ownership of the Stuckey Fertilizer Works, Inc., of Pahokee.

Mr. Dunson is President, and general manager of the company. Others officers are: Howard C. Fisher, First Vice-President; and Howard K. Morgan, Secretary-Treasurer.

Mr. Dunson, the new President, has for the past twenty years been a resident and business man of Fort Lauderdale, where he has been in charge of the fertilizer business for over thirty years.

Mr. Dunson states that the business will continue to specialize in the manufacturing of fertilizer, insecticides, mineral mix and other related products. New owners are now making plans for additions and expansion to the present facilities in order to more ably serve the Florida farmers, but plant operation will not be interrupted.

## 783 Get Positions During Physically Handicapped Week

During National Employ the Physically Handicapped Week, October 7-13, the State Employment Service placed 783 physically handicapped persons in jobs. There were 1,783 openings in which employers indicated their willingness to employ persons with physical limitations.

Leesburg led all the field with Miami runner-up and Tampa third.

Available for employment, the physically handicapped now in the files of the Employment Service are 1,460 veterans, none under 24,400 leaving the service open for future cooperative efforts on the part of the Employment Service with employers favorable to the program.

The Employment Service is working closely with the Vocational Rehabilitation Division of the State Department of Education under the direction of Mr. Claud Andrews. The program now, as far as Florida is concerned, is fast becoming a year round effort.

In 1950, 11,273 handicapped persons were placed in useful employment by the Florida State Employment Service. In October of this year, 1,456 with physical limitations were placed in jobs.

**YOUR CAR, SIMILAR TO ALADDIN'S MAGIC LAMP**

Aladdin, the boy who rubbed the magic lamp, had nothing on you.

You too can stretch out a finger—or even a toe—and command a genie that controls tremendous stores of money, the horsepower that drives your family automobile.

Maybe you never thought about it just that way. But you are transported, at your slightest whim, to shopping centers, stores in distant cities, schools, supermarkets, offices and theaters of your own area—to all the conveniences of the modern world.

Your "magic lamp" is the tiny, giant-powered self-starter invented forty years ago by a young genius (or genius, if you like) named Charles F. Kettering.

Before it existed as standard equipment on new cars, starting was a chore beyond the strength of most women—a chore dangerous to most men, if they were not extremely careful.

Small wonder that the scientists of the nation have been times recently honored Kettering for this and many other contributions to the science of everyday living, through the automobile.

Yet most motorists take that "magic lamp" so much for granted that they give it no help at all—and it sometimes needs help.

This is the time of year when that small miracle begins to need help in the form of precautions—those precautions that mean easier winter driving. One automatic engineer put it this way: "The self-starter tool the druggery out of driving and put the automobile into daily life. But you've got to give that starter a chance to work."

Blake Dunson Takes Over Stuckey Fertilizer

1. Have your battery checked for peak performance in cold weather.

2. Have your cooling system checked and treated with rust-inhibitor to be sure it's in good shape before adding the antifreeze. This will prevent cracked hoses and clogged radiators.

3. Be sure you use the right kind and the right amount of oil for your engine.

4. Have your chains checked for proper links and wear, and get them replaced if they need it.

5. Get your brakes checked for proper adjustment.

6. Have your ignition system checked for proper spark, plugs, wiring, condenser and distributor points. This can be adjusted if they need it.

7. Be sure to take your car to a new car dealer or expert who knows your car best.

## LACAGNE SUGGESTS STOPPING OF TUNING ON GENERAL FARM

Many northern Florida farmers who have suitable sites and soils for tung trees may find plantings of this crop a profitable addition to their farming programs, according to Dr. Felix S. Lagagne, U. S. Department of Agriculture horticulturist in charge of the tung investigations laboratory here.

"Tung may be grown as far southward as the Gulf of Mexico," Dr. Lagagne said, "and we do not recommend it below the 24th parallel, but there are many farmers in the northern section of our state who can grow tung trees on their farms, and satisfactory sites or soils, which are of great importance with this crop, some northern Florida farmers cannot grow tung trees and others cannot—should."

Florida has 35,000 acres of tung who will produce a crop of 175,000 tons of nut value at \$1,500,000 this year, but more tung will be produced profitably in this state. Dr. Lagagne explained that most Florida plantings are comparatively large and emphasized that many farmers have small surplus acreages that can be planted to tung.

"Not all of the surplus land—ranging from 10 to 50 acres in size—is suitable, as some of it is poor soil or is in a 'cold spot.' Some of the land is suitable, however, and farmers who have land not now in profitable production should investigate the possibility of producing tung in it," the horticulturist said.

Information on the suitability of land for tung may be obtained from county agents or from the tung laboratory here, and Dr. Lagagne advised any farmer who is interested to obtain full information before deciding to plant the crop.

Farmers who are producing other crops usually have equipment needed for preparing land, planting, and cultivating tung trees. The tung tree is a long-lived tree and its production is comparatively low, but trees do not begin bearing until three or four years of age. The crop requires fertilization and cultivation periodically, but most of the land labor is done in the spring and the harvest is in the fall, however, this work does not interfere with other crop work in northern Florida.

As tung oil is needed in paints and in many other industrial uses and the United States is producing only a small percentage of its needs most of the oil has to be imported from China, the demand for the crop is expected to continue good, Dr. Lagagne explained.

First Guest Instructor Scheduled At Norton Gallery

With the third month of the Norton School of Art's winter session at hand, announcement is made of the arrival December 1st of Jose de Creff, the first time the school has had a foreign artist as a guest instructor.

Mr. de Creff is considered one of the most important contemporary sculptors. He is the author of six sculptures chosen to

plete the Ellen Phillips Samuel Memorial in Philadelphia, selection of these sculptures being made on the basis of their work exhibited in the Fairmount Park Association's 3rd International Exhibition of Sculpture at the Philadelphia Museum of Art.

Mr. de Creff's work is represented in the collections of many of the leading museums in this country including the Metropolitan Museum of Art, the Museum of Modern Art, the Norton Gallery; and he was invited to show in the current 60th Annual American Exhibition at the The Institute of Chicago.

Mr. de Creff will teach classes in sculpture and ceramics beginning December 3rd. The sculpture class consists of instruction in direct carving of the block in wood and stone including problems of form and texture and information concerning the proper use and care of tools. The work in ceramics will demonstrate the use of this medium as an introduction to three dimensional form and will include simplified technique in firing and fundamentals of glaze.

Mr. de Creff will be at the Norton School for 5 months. His classes are open to beginning and advanced students and will meet 3 mornings a week with the sculpture studio available at all times for independent work. Anyone interested in further details regarding these classes should call Miss Helen W. Burgess at the school office.

## SPEED HISTORY SLATED AT PALM BEACH SPEEDWAY

Speed history will be made here at West Palm Beach Speedway this Saturday afternoon when the nation's top chauffeurs compete in a seven-event inaugural bill of championship AAA auto races.

The first title races officially sanctioned by the AAA Contest Board of Washington, D. C., ever presented here open with qualifying time trials at 1 p. m. and the competitive action at 2:30. The program is under the direction of Sam Nunn, Speedway manager.

Slated to lead the roaring

field are Tommy Hinnershitz, Pa., twice East Coast AAA champion for 1949-50, and Bill Schlindler, one-legged Indianapolis ace from Freeport, L. I., N. Y. The latter driver will strive to block the Pennsylvanian's aim at another East Coast title in the races.

Other nationally known speedmen entered include Duane Carter, Fresno, Calif., 1949 Midwest AAA king; Mark Light, Lebanon, Pa., former East Coast ruler; George Fonger, Lansdale, Pa., Indianapolis "900" star; Otis Sline, York, Pa., East Coast AAA runner-up; Joe Barza, Elizabeth, N. J.; Hank Rogers, Trenton, N. J.; Buzz Barton, Tulsa, Okla.; Jim Bryan, Phoenix, Ariz.; Bill Gause, Allentown, Pa.; and Ernie McCoy, Reading, Pa.

As most of the drivers will be at the wheels of world-famous Offenhauser cars it is estimated that the machines in Sunday's races will value at \$50,000 to \$400,000. A big 30-lap race heads the seven-event action.

As Sunday's points will be a deciding factor in the 1951 East Coast AAA championship standings, AAA officials will be present to supervise the action.

Strange Blackhead Tree Found In Nearby State Park

With flowers as fragrant as jam and the shape of small woolly powderpuffs, the beautiful and strange blackhead tree can be observed during a stroll down the nature trails along the bayou at Hugh Taylor Birch State Park, a 16-minute drive from Ft. Lauderdale.

On some of the trees the flowers are pink; on others, cream-colored. The pods curl up into corkscrews and circles, and then split open to show shining black beads or seeds. Each of these beads has a bright red tail or wing.

This charming little tree of tall shrub, truly an oddity of nature, is related to the mimosa, but its leaves, instead of being feathery, are divided so that they look as if each leaf were holding up four fingers, short and round as thumbs.
